Notes and Caveats

â€¢ Daily window is yesterday only.

â€¢ Staffing days are aircraft-days: each NASDD row counts as one staffed aircraft day.

â€¢ Flight hours use Column E / Total Shift Flight Time. No-decimal multi-digit values are shifted after the first digit; values still over 8.0 become 0.0 for correction.

â€¢ Call Sign / Contract summaries exclude N/A/blank placeholder values.

â€¢ This is a GPT clean trial layout for review before setting the daily standard.
